

# IS THE END OF DAYS NEAR? NEW BOOK DEMYSTIFIES BIBLICAL MESSIANIC PROPHECY

*Creation Evolution Expert Searches for the Secret to the World's Future*

Is history a purposeful process with a beginning and an end, or is it a random series of events with neither purpose nor direction? If history is a guided process, are we near the end, and have we almost completed preparations for the End of Days? What will happen next? When? Suddenly, every plan becomes evident when enough of it has played out. So, have we reached now the point in history where the plan is apparent?

## In this book, readers will learn:

- World history within the context of the Divine plan, and understanding what has happened in the recent past and what is in store for the future.
- Why other experts who interpret the End of Days by deciphering prophecy may have it all wrong.
- How parallel periods of history that have already occurred provide context for the End of Days.
- How the cosmic placement of events, both historical and present, reveals a pattern of the future.
- A bird's-eye view of where we have been and where we might go in order to bring us to a new level of understanding and a further questioning of our human origins, purpose, destiny, and ability to alter the path to the future.

*"Friedmann has researched and composed another of his signature works deciphering the origins of the universe and decoding the unfolding apocalypse. He has gloriously composed a mesmerizing manuscript that leaves you spellbound."*

**- Pulitzer nominated author, David W. Menefee**

In the Roadmap to the End of Days, Friedmann takes you on a journey to discover what is really going on, and then glimpse the future and ponder the role you will play.

## Topics for Discussion:

- How does your approach to the End of Days differ from most widely held interpretations?
- Explain how looking at history from the context of the Divine plan for the world can lead us to interpret historical events, and determine what will happen next and when?.
- What is the biggest takeaway that you want readers to have after finishing your book?
- What do you think the future holds for us, based on your extensive analysis?
- If you recommended just one chapter of their book, what should someone read and why?

## About Daniel Friedmann

Daniel Friedmann, P.Eng., M.A.Sc., a Readers' Favorite International Book Award Winner, studies the origin of the universe and life on earth. He is an expert on the creation evolution debate. He was the CEO of a global technology company for 20 years and is a student of religion. His work on reconciling the biblical account with scientific observation using his biblical clock formula has been reported in conferences, newspapers, and magazines, as well as television and radio programs. He is the author of The Genesis One Code and The Broken Gift.
